

Digital Signs RFP

Q&A

1. Is Electro-Matic an acceptable manufacturer for the digital signs? As the scope of services doesn't call out a manufacturer.
 - a. Yes, it is acceptable.
2. On the add alternates for Letter D. Are we able provide an alternate for Electro-Matic Display sign?
 - a. No.
3. Does the add/alternate for Riverfront need to be the specified Daktronics Galaxy or can a comparable model from another manufacturer be utilized?
 - a. Yes, Daktronics Galaxy.
4. Quackenbush "new-entry" driveway sign: Can existing power and network feeding light poles in Quackenbush Lot be utilized or are new/dedicated runs necessary?
 - a. Yes, as long as it is in compliance with codes.
5. What permitting will be needed for this scope and who will be responsible for obtaining any necessary permits?
 - a. The contractor is responsible for all necessary permits. We do not know what kind or if permits are required.
6. The resolution specified as minimum is not possible with a 2.5mm LED display while still meeting the size requirements. It can be achieved with a much higher pixel pitch (1.2mm range) which has a much higher cost. Is the preference for the 2.5mm or the noted resolution?
 - a. A Higher resolution is acceptable.
7. Under Add Alternates: #4. Provide and install a 4' x 8' Daktronics Galaxy GS6 full color unit, 15.85mm with 4G wireless. Will you consider alternative brands for the full-color unit?
 - a. No.

A, B & D

8. Are we removing any old signs at this location?
 - a. No.
9. Just to confirm, these are all outdoor?
 - a. Yes.
10. Does it have to be Daktroniks or something similar?
 - a. Add alternate D needs to be Daktronics
11. Are you going to be providing content or do you want us to do the content?
 - a. We will be providing content.

C. Provide and install kiosk mounted displays for entry lanes (9). Display Dimensions should be greater than 7"x5" but not to exceed 12"x16" depth should not exceed 6".

12. Are we removing any old signs at these locations?
 - a. No.
13. Are these outdoor or indoor?
 - a. Outdoor.

14. Do you need these bolted down or have some type of security on them?
 - a. Yes, they need to be secured.
15. Interactive or non-interactive?
 - a. Non-interactive.
16. Are you going to be providing content or do you want us to do the content?
 - a. We will be providing content.
17. None of the manufacturers that I represent make a 5000 nit 55" LCD monitor any more. Is 4,000 nit acceptable?
 - a. Yes, A4000 nit is acceptable.
18. At the 25 Orange St. location in the back, can we tap into the power and data going under the curb.
near the location that you want to put one of the kiosks?
If not, can you provide specific distance and pathways from the building that we can utilize?
 - a. Yes, as long as it is in compliance with codes.
19. During the walk through, Add Alternates C was not really discussed. Where on the entry lanes would these be positioned?
 - a. Next to the existing kiosks.
20. Do they have a minimum resolution requirement?
 - a. Yes, 1080p.
21. Are these supposed to be replacements for the displays that are being removed?
 - a. No, these are additions.
22. Add Alternates D. Can this display be from a different manufacturer than Daktronics, but equivalent?
 - a. Add alternate D needs to be Daktronics.
23. For the software, how many years of cloud based service do you want included in the pricing?
 - a. A 5-year minimum.
